 Gateway Sponsored Pro  
 2009 USDGC Champion  
 2009 National Tour Points Winner  
 2009 Leading Money Winner

All discs are PGA approved

## PUTTER FLEX/SURFACE COMPLEXION

Gateway's Putt and Approach discs are #1 in the sport of disc golf. Our 4 putters are comfortable in the hand, durable, grippy and each come in 4 different flex/surface complexions.

- **Medium** - For a firm, no flex feel
- **Soft** - Firm rim, pliable flight plate
- **Super Soft** - Flexible rim, but still springy with a super soft grippy surface
- **Super Stupid Soft** - Very flexible rim, extremely soft surface

All putters and Mid-Range have a unique design where the flight plate increases thickness right before the rim. This reinforced the shape, adds durability and increases the gyroscopic disc nature.

## PUTTERS AND APPROACH DISCS

## POLYMERS FOR DISCS

**Sure Grip "S"** Custom engineered blends of Santoprene™ rubber & Polypropylene that produces durable grippy discs for great feel & performance in all weather conditions.  
**Evolution HPP "E"** A combination of hard and soft-touch polyurethanes, providing the right feel, flex and shape in each disc. **Dow Pellethane™** is virtually scratch/chip/dent proof and is regarded as one of the best material to use for sporting goods equipment.
